📍 São Paulo, Brazil

Profile

Full-stack developer, knowledge and experience in deploying apps with React, Redux, Ruby on Rails, etc. Games enthusiast and always seeking to learn more. I enjoy working with JavaScript, React, Ruby, and doing challenges, as it allows me to exercise my brain. I have worked with people from over 7 countries and chatted with people from over 90.

Skills

Front-End: JavaScript, HTML5, CSS3, React, Redux, Bootstrap, Scss.

Back-End: Ruby, Ruby on Rails, PostgreSQL.

Tools & Methods: Git, GitHub, Chrome Dev Tools.

Professional: Remote Pair-Programming, Teamwork, Mentoring, Leadership.

Education

Microverse [🔗](#)

Feb 2021 – Dec 2021

Remote Full Stack Web Development Program, Full Time

San Francisco, USA

- Worked with people from over 90 different countries.
- Spent +1500 hours in projects using several different coding languages and frameworks such as JavaScript, React/Redux, Ruby on Rails, Ruby, PostgreSQL, HTML&CSS, Bootstrap.
- Learned how to use GitHub, Git, and Gitflow as a version control system for my projects.
- Developed skills in remote pair programming and daily standups to communicate and collaborate with international remote developers.
- Built over 40 mini projects with multiple tech stacks over 8 months.

Professional Experience

Code Reviewer

Sep 2021 – present

Microverse [🔗](#)

San Francisco, USA

- Guide students on JavaScript, Ruby, and React projects.
- Work with students from over 7 different countries.
- Effectively communicate through tools like Slack, Zoom, Zendesk, and GitHub.
- Consistently receive excellent feedback from my mentees.

Mentor (Volunteer)

Mar 2021 – Sep 2021

Microverse [🔗](#)

San Francisco, USA

- Mentored junior web developers, providing technical support through code reviews for React, JavaScript, HTML, and CSS.
- Proposed improvements to code organization to increase code quality and overall performance, for example, I helped them see in their code mistakes like a big stack of If rules that could be repurposed.
- Provided advice and tips on how students could improve their coding and stay motivated while learning.

Rockstar Expert - Customer Support

2020 – 2021

Directly [🔗](#)

San Francisco, USA

- Helped over 20 people on a daily basis fix their issues related to mostly technical bugs.
- Helped over 3000 people during my work time and got a success rate of over 70% with a satisfactory rate of over 80%.
- Developed a sense of community with my coworkers since we tried to help each other through the forums.
- Learned how to stay up to date with information pertinent to my job, such as updates on the product and hotfixes launched by the company.
- Helped my coworkers with positive, constructive feedback on how they could improve certain answers they gave customers.
